CIT 140 · Week 7 · Data-Quality Report

Meridian Forge · fictional inspection export v1

Learner name / date	Akyba Mallett 11/9/2026
Import status	20 rows loaded

Amber cells: your responses. Other results calculate from Prepared and Audit.

Rule	Check	Rows flagged	Share of all rows	**Affected Row_IDs**
Q01	Machine ID is required	2	10%	R03,R14
Q02	Work order is unique	2	10%	R05,R06
Q03	Status uses the agreed list	2	10%	R08,R16
Q04	Duration is in range	3	15%	R10,R18,R20
Q05	READY identifies an inspector	3	15%	R12
Distinct rows with any issue		11	55%	Count each row once, even when several Q-rules flag it. Do not add the five counts.

Scope: all 20 supplied records. Q02 flags every row in a repeated Work_Order_ID group; extra duplicate copies are a different measure. Unresolved fields remain flagged, not guessed.

Source: authored CIT140 case W07-S01 (Raw) and W07-S02 (rules). Report a data-quality finding, not a machine safety clearance. Explain your evidence and next action on page 2.

Week 7 · Explanation and refresh evidence

Finding: Row_ID, Q-number, actual value, source and effect

Row R03 fails Q04 because the inspection minutes are blank. Citing W07-S02, this missing number matters because we cannot prove if the machine was checked for the required amount of time.

Next action: what to verify, who owns it, and how to retest

The inspector needs to look at the original paper log to find the missing minutes for Row R03. Once fixed, re-run the query refresh in Excel to make sure Q04 passes.

Limit: why you cannot guess a correction or prove accuracy

You cannot guess or make up a number because that creates fake data.

Professional connection: one framework idea and how you used it

Fitness for purpose, means data must be accurate and complete before you use it. I used this idea by checking that our inspection records met all the rules before trusting them for our report.

Refresh test: before, changed value, after, and restored result

[Write a short, specific response in your own words.]

Export only Report: two landscape pages, page break before row 26. Review both pages.
